ABOUT US

M.D Expert building construction was started by Dan Masebe before I started building construction company I was working as a labour and I became a brick layer

I was payed R1,50 a day and I gained lot of experience in construction In 2000 I decided to open my own construction company cause I have lots of experience

since then I have attracted lots of client and I have done lots of work all over the country

no matter how big or small the work is I do it with passion and good services

I offer good and quality services to my clients and my clients are always happy with my services

this is the services I offer here at M.D Expert Building Construction building, painting, plumbing, tiling, palisade, plastering

here is the references of the clients that I have offered my services

Residential

M.D expert building Construction is fully registered with the NHBRC. We also do housing development projects, and multilevel blocks. We focus on development residential projects and we can assist the client with sourcing, planning, designing constructing and completing projects through our experienced team. We also take on selective renovation projects. Whether you are planning to build your own home or a housing project, we can provide you with a quality end product, within budget and on time.
